# BOOK of SAM

## FREE SPINS

Three or more book symbols trigger the bonus game with 8 free spins, and up to 3 expanding symbols! Retriggering the bonus game awards an additional 4 free spins as well as an additional expanding symbol.

## VEGAS BABY!

Sam loves the all-you-can-eat buffets, and Sandra the oversized cocktails, so a trip to Las Vegas felt spot on. When the babysitter canceled last minute, they had no choice but to bring their charming energetic daughter Maggie on the trip.

Book of Sam is a 5 reels, 3 rows electric slot that comes with multipliers, respins, symbols removals, and a bonus game with expanding symbols.

## ELECTRIC TREATS

### SAM

A win on Sam awards a randomly placed book symbol, which is both a wild and a bonus symbol!

### SANDRA

A win on Sandra awards a respin with an increased multiplier.

### MAGGIE

A win on Maggie removes all low value symbols together with the cat and Maggie, and new symbols are dropped.

**X-iter™**

X-iter™ allows players to jump straight into the action with 5 different game modes ranging from a 2x bet with more than a double chance to hit the bonus, to a 500x bet Super Bonus with all symbols expanding.

## Recommended size and ratio for desktop browsers

For the optimal gaming experience, ELK Studios recommend launching the game in 1600x900 resolution. If scaling is required, use 16:9 ratio.

## Technology

ELK games uses state of the art web technologies including support for canvas and WebGL. The client detects the capabilities of the device regardless if the player is running on a desktop, tablet or mobile.

The game client will then optimize the gaming experience based on those parameters.

## We build great casino games

Since founded in 2013, ELK Studios has pushed boundaries in the online casino industry. From groundbreaking mathematics to astonishing artwork, ELK takes pride in developing entertaining mobile first content that maximizes the experience for players around the world.

Our games are developed and compiled by our inhouse studio in Sweden, and we use well known test centers such as Trisigma and Gaming Laboratories International to certify them. Once released, all games are operated by partners and operators who hold license in each market.
