GAME FEATURES

Walking Wild Re-Spins

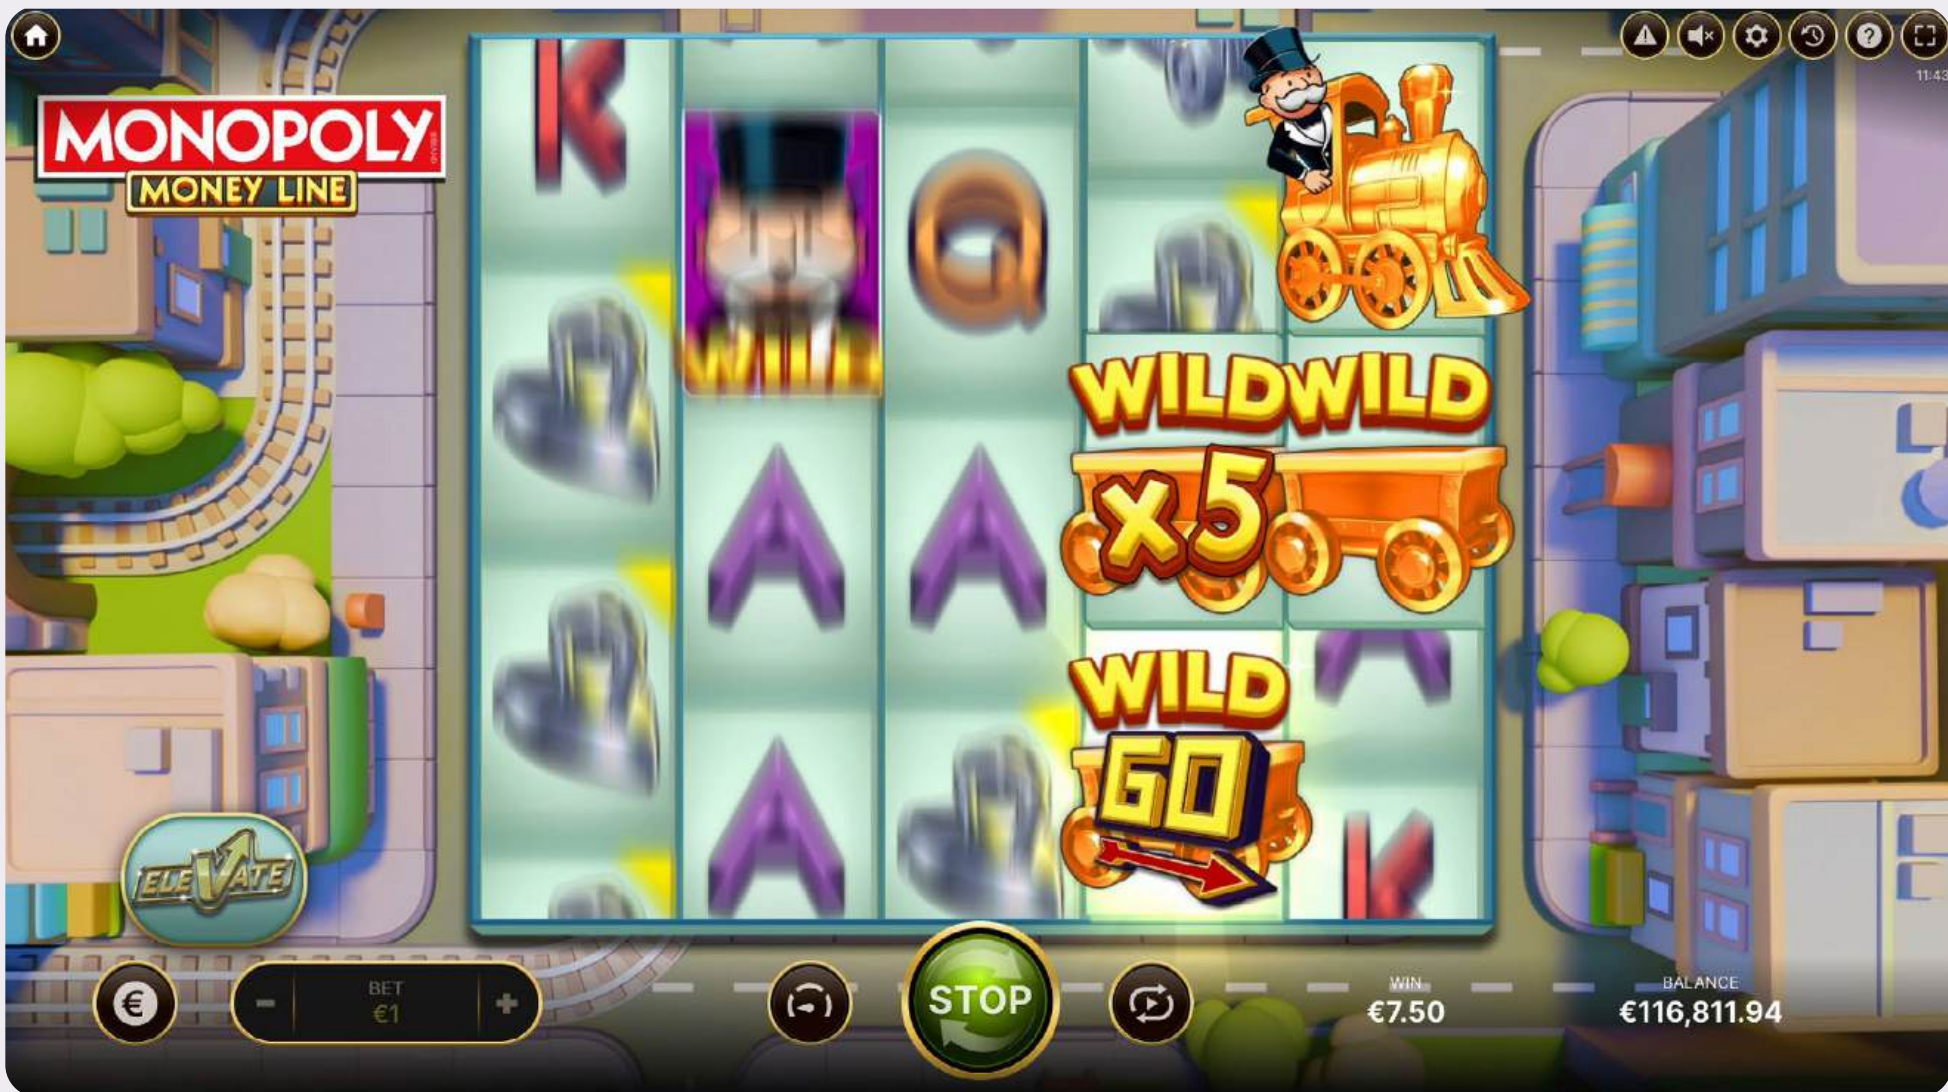

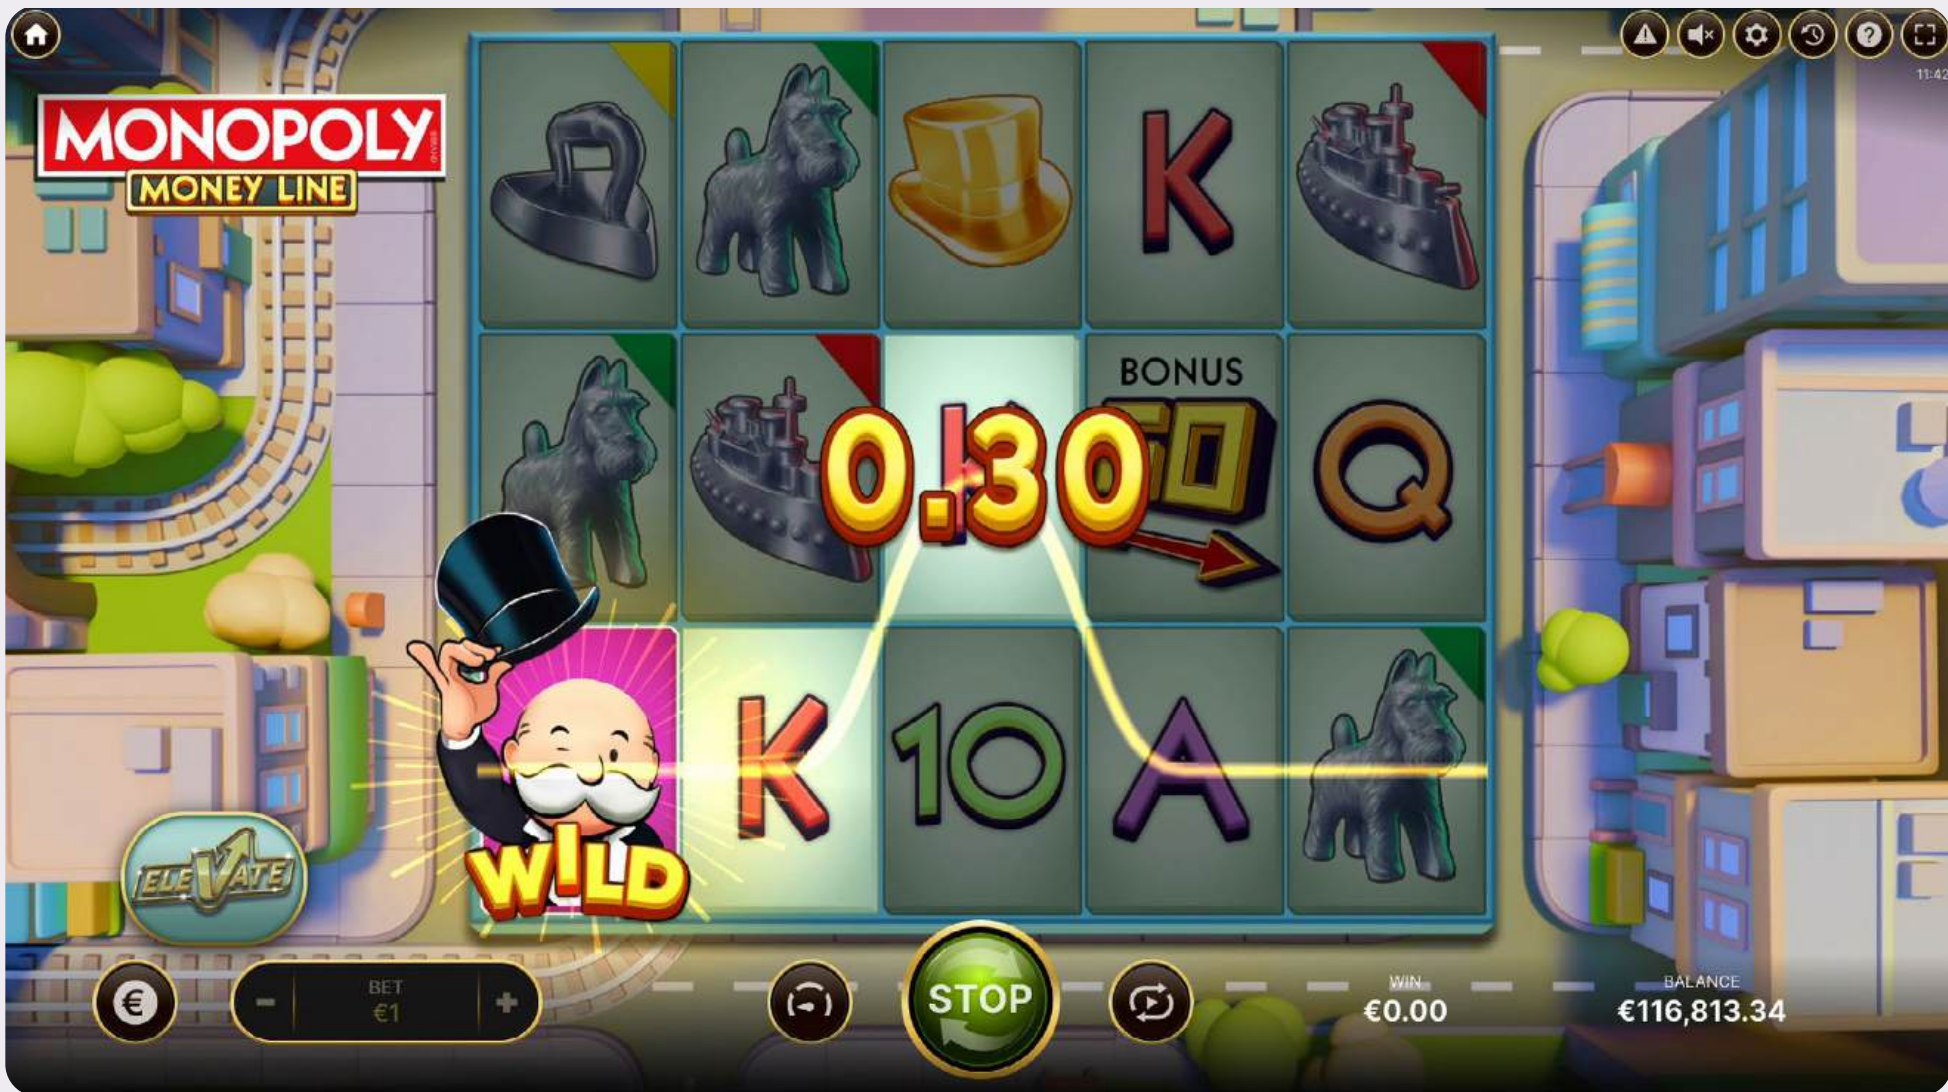

Re-Spins are randomly activated in the main game. When Re-Spins are active, the Walking Wild symbol **enters the reels from any position** near the edge of the play area. **The Walking Wild appears as the front of a train.** At the start of each Re-Spin the train **moves forward one step in any direction** until it disappears from the reels.

The Walking Wild train **has carts attached to it** that appear on the reels as the train moves further into the reels. **Each cart can contain regular Wilds, Wilds with either x2 or x5 multipliers, and/or a Scatter.** The Scatter is also a Wild.

The Walking Wild train cannot loop or cross its own path. **When the train exits the reels, one final Re-Spin occurs** with all carts still on the reels.

Wild symbols substitute for all symbols except for the Scatter symbols. Wild symbol substitution pays the highest possible winning combination on a bet line, according to the Paytable.

At the end of Re-Spins, the total win from Re-Spins is added to any wins from the round that activated Re-Spins. **Re-Spins are played at the same bet as the round that activated Re-Spins.**

GAME FEATURES

Free Spins

In the main game, **3 Scatters landing on reels 2, 3, and 4 activate 3 Free Spins** on a 5-reel, 5-row play area. If 3 Scatters appear in the main game during Re-Spins, the Free Spins are played after Re-Spins end.

During Free Spins **only the green, pink, orange and blue street symbols, a collector chest symbol and golden ticket can land**. Street symbols and the collector chest symbols stay on the reels until the end of Free Spins. Street, collector and golden ticket landing on the reels reset the spins counter to 3.

Street symbols carry the multiplier value of one house when they land on the reels. Green street symbols have an x1 multiplier, pink street symbols have an x2 multiplier, orange street symbols have an x3 multiplier and blue street symbols have an x5 multiplier.

When a collector lands, it collects the multiplier of all symbols on the reels to become its multiplier. Symbols on the reels keep their multiplier even when collected by the collector.

The collector symbol can only land when street symbols are present on the reels or on the same spin in which the first street symbol appears.

When a golden ticket symbol lands during Free Spins, a train arrives at the bottom of the reels. The train has carts that **award from 3 to 15 prizes**. When the train arrives, the prizes from all carts are released. After prizes are awarded the train leaves the reels.

Train prizes:

- **Extra Houses:** All street symbols of one colour receive between 1 and 4 additional houses.
- **Street Multiplier:** All street symbols of one colour receive a x2, x3, x5, x10 or x25 multiplier.
- **Chest Multiplier:** All collectors on the reels receive a x2 or x3 multiplier.
- **Chance Card:** A random card is drawn to activate one of the following features:
 - **Railroad Expansion:** A new train is activated and awards a new set of prizes.
 - **Rent Rush:** Collects multipliers from all streets on the reels and adds them to the total win. The collection happens after all train prizes are awarded.
 - **The Investor:** A sticky symbol lands on the reels with random value of x1, x1.5, x2, x2.5, or x3 and gains an additional x2 multiplier every spin until the end of Free Spins.
 - **Tax Refund:** Awards a prize bag with a random value of 20, 40, 60, 80 or 100 times the bet.
 - **Multiplier:** Adds a x2, x3, x5 x10 or x25 multiplier to all streets on the reels.

A golden ticket lands alone without any other streets or collectors landing during the same spin. **At least one train is activated per Free Spins session.**

Free Spins are played at the same bet as the round that activated Free Spins. At the end of Free Spins, the total win from Free Spins is added to any wins from the round that activated Free Spins and the game returns to the round that activated Free Spins.
