## GAMEPLAY IN BRIEF

### BASICS

The base game is a 3x5 slot game that features Tumbling Reels and when a winning combination is formed, the winning symbols will be removed and replaced with new ones, to help to create new win streaks and activate the Pigs Turn Wild feature. During the Pigs Turn Wild feature, consecutive tumbles will result in more pigs turning wild. On the second tumble, all red pig symbols will turn wild, on the fourth tumble in a spin all green pig symbols will turn wild and the 6th consecutive tumble in a spin will cause all the blue pigs to turn wild.

Landing 3 Wolf Scatter symbols will activate the Wolf Bonus game and, if you want to skip straight to the action, you can use the Bonus Buy and pay 40x your bet to buy 3 Wolf Scatters and gain entry into the bonus game.

The Live Bonus game consists of three parts: the Top Up Game, the Multiplier Collect Game and the Wolf Wheel Game

### TOP-UP GAME

While you're waiting for the Wolf Bonus game to start, you can enjoy a simple 3-reel, 1 line Top-up Game to boost your winnings. It contains three symbols and will award a prize according to the paytable. The Top Up game is not free, and any winnings will be added to the overall winnings at the end of the Bonus Game.

### MULTIPLIER COLLECT GAME

During the Multiplier Collect game, little pig symbols with different colours and multipliers will spin on the reels, creating three different multiplier pots, one for each colour. The Wheel Game will decide the winning colour and will add a new multiplier on top.

### WOLF WHEEL GAME

During the Wolf Wheel bonus game, the presenter will spin the wheel and, depending on where the pin lands, will determine what you win. The pin could land on red, green or blue sections with multipliers ranging from 1x to 3x or it could land on the Wolf to win all colours with multipliers of 1x, 2x or 7x.
