

# WILD TOME OF THE WOODS

This game is set in Whittlewood Forest, a former medieval hunting ground in Northamptonshire, where a reclusive wizard named Tom lives. But all his friends – the half frog/half newt Crikey, the fox Sylvester the 3rd, and the posh owl from Oxford named Eleanor – call him Middy (short for Midas) due to his life-long obsession of trying to turn things into gold.

Now his Wild Tome has started to turn random things into gold instead (including the wizard's friends)! So why not take advantage of the situation and grab some gold for yourself?

This fun-filled 4x6 slot with 26 bet lines includes exciting features, like the Wild Tome feature that will turn other symbols into Wilds or new Wild Tomes, creating truly magical amounts of Wilds. And for the chance to win BIG, fill the entire grid with Wilds to get the All Wilds Win!

## Wild Tome

When you get one or more Wild Tome symbols in a spin, each Wild Tome will select one of the other characters or potions on the reels and turn both them and itself into Wilds!

There's also a chance that one of the Wilds will turn into another Wild Tome, which will then turn yet another character or potion into Wilds.

This can go on and on as a chain reaction until you've converted the entire grid into Wilds!

And if you manage that, you'll trigger the 'All Wilds' feature which will pay 1,000x bet!
